RYG's VERDICT

78%

BARGAIN-BASE- MENT MATERIAL SHOWS PROMISE & POTENTIAL

64% and below

Between 65% and 84%

WORTH SUPPORTING

85% and above

While GOG has provided a stable and playable version of Thief (TDP), the game plays far better with an array of video options via TFix's NewDark and improved HD textures provided via ModDB. However, players should expect a 2Gb+ addition to their Thief installation if they opt for this attractive route. With respect to GOG our assessment's pretty much in line with previous evaluations of GOG with Banished our last and most recent GOG evaluation. Players should expect very few surprises in playing this DRM-Free version of Thief and with the fixes and mods available they should be able to get the best out of this original FPS stealth game.

Colophon

This analysis of Thief (TDP) was compiled by Lisa and Martin Pham. Typeface used is ITC Stone Sans. RYG thanks Anna Henriksson, **Josh Bush**, **Ethan Lee**, **Adam Ames** and **David Hatch** for their insights and suggestions in the design of this analysis. Thief (TDP) was bought with RYG funds through GOG.
